Agenda

- Open access agreement with your institution
- What is open access and what are its benefits?
- Author workflow: what to expect
- Writing tips for authors
- Useful resources for authors and researchers

Publish open access with Wiley at no cost

- Your institution has an open access agreement with Wiley that covers articles with **federal corresponding authors across all NOAA**.
- The article publication charges (APCs) that publishing open access entails may be covered by your institution through this agreement.
- This is subject to eligibility criteria at the discretion of administrators at your institution located [here](#).
- The agreement also grants you **read access to Wiley journals**.

Check your eligibility [here](#).

WILEY

Open access basics

What is open access and
what are the benefits?

Open access

- Immediately, freely available online for all to read, download, reuse and share
- An Article Publication Charge (APC) is typically applied. This may be covered by an institution or funder
- Published under a Creative Commons (CC) license, author retains copyright

Types of journals

Subscription only journals:

- Free to publish but need to be subscriber to read

Hybrid journals:

- Subscription journal that allows open access publications
- Article can be published behind or outside paywall

Fully open access (gold) journals:

- Articles are freely accessible online
- Authors pay an Article Publication Charge (APC)
- The APC can be paid via the author's institution or funding

For listings of Wiley open access and hybrid journals, more information can be found [here](#).

The screenshot shows the Wiley Journal Finder application. The top navigation bar includes the Wiley logo, a R&D HOME link, and a LAUNCH JOURNAL FINDER link. A red header bar contains the text 'Journal Finder'. Below the header, a descriptive text block explains the purpose of the application, mentioning it helps authors find journals best matched to their article's subject. It also notes that the application shows categories assigned to journals based on Wiley subject taxonomy and provides a way to develop a categorization tool. The main content area is titled 'Journal Finder' and contains a text input field with the placeholder 'Choose File' and a file path 'Strategic Us... ackaging.txt'. Below this is a scrollable text area titled 'Abstract' containing a sample abstract about the functions of packaging colours. A 'Change' link is located in the top right corner of this section.

Creative Commons – what are the differences?

Creative Commons Attribution

This is the most accommodating of licenses offered, allowing reusers to distribute, remix, adapt, and build upon the material in any medium or format, so long as attribution is given to the creator. The license allows for commercial use.

Creative Commons Attribution-Noncommercial

Let's others remix, tweak, and build upon your work non-commercially, in any format

Derivative works must also provide proper attribution, a link to the license and the document indicate if any changes were made

Creative Commons Attribution-No Derivative Works

Allows for copying and redistribution, commercial and non-commercial, in any format, as long as proper attribution is given, a link to the license is provided,

Does not permit the distribution of modified material.

Authors' Workflow

The Author Workflow in Wiley Open Access Accounts

WILEY

Authors' Workflow for Gold Open Access Journals

Step 1:

Author submits manuscript to Open Access Journal and indicates affiliation with Wiley Open Access Account in payment question

Submission to Open Access Journals

Submission to OA journal

Authors will be presented with a payment question during manuscript submission.

They will indicate their affiliation with a Wiley Open Access Account.

Submission

- Step 1: Type, Title, & Abstract >
- Step 2: File Upload >
- Step 3: Attributes >
- Step 4: Authors & Institutions >
- Step 5: Reviewers >
- Step 6: Details & Comments >
- Step 7: Review & Submit >

Payment Options
Upon submission of your manuscript, you'll need to select **one** of the **three** payment options.

Please note that funding, discounts and waivers will only be awarded if the **CORRESPONDING Author** qualifies. Therefore it is essential that you have correctly flagged the Corresponding Author on the "Authors & Institutions" submission step.

Depending on the Corresponding Author's institutional affiliation or funding source:

1. The Corresponding Author's institution or funder has an existing agreement with Wiley and may pay the Article Publication Charge from this account on behalf of the author, or offer a discounted APC.
Use our [Account Code Finder Tool](#) to check if the Corresponding Author's institution or funder has an agreement with Wiley that may pay your Article Publication Charge or offer a discounted APC. If their institution or funder is listed, choose this option.
2. The Corresponding Author (or their institution) will pay directly or will arrange payment (request an invoice) for the APC.
Select this option to pay or to arrange payment for the Article Publication Charge. Choose this option if the institution requires an invoice for payment. You can pay by credit card, invoice or proforma. If you choose this option, you may also be eligible for certain discounts from the "Discounts That May Apply" section.
3. The Corresponding Author is from a country on the [Wiley Open Access Automatic Waiver List](#) and may be eligible for an automatic waiver of the Article Publication Charge.
If the Corresponding Author is from a country that appears on the list linked to above, select the Automatic Waiver option.

Choose a Payment Option

1. The Corresponding Author's institution or funder has an existing agreement with Wiley and may pay the Article Publication Charge from this account on behalf of the author, or offer a discounted APC.
Click here to access the [Account Code Finder Tool](#). Follow the directions on the page and enter the institution's code in the field below.
Please enter institution code here:
 0 OUT OF 4 CHARACTERS
2. The Corresponding Author will pay directly or will arrange payment (request an invoice) for the Article Publication Charge.
(Select from the dropdown menus below for any applicable discounts.)
3. The Corresponding Author is from a country on the [Wiley Open Access Automatic Waiver List](#) and requests an Automatic Waiver of the Article Publication Charge for this article.

Contributor-owned work
This is the correct selection for most authors. It is customary in most academic and healthcare institutions for faculty to retain copyright for articles that they have authored. Please check whether different policies apply in your institution.

U.S. Government work
Applies only if your work was authored as part of your official duties as a United States federal government employee; such works are in the public domain in the US.

U.K. Government work
Applies only to employees of the U.K. Government.

Non-Governmental Organization work
Applies only if the work was carried out during the course of employment by a Non-Governmental Organization.

Other Government work
Applies only to government employees outside of the U.S. and U.K.

Company/institution-owned work
This does not typically apply to most universities and academic institutions. Applies when an organization, often a commercial corporation, owns the copyright of a work either because there is a specific clause in the author's contract of employment that states the company/institution's ownership of its employees' intellectual property, or it has been contracted ('made for hire').

Open Access Workflow – Hindawi Submission

Hindawi journals have a **slightly different workflow for authors**, managed through the system Phenom, as opposed to prior workflows taking place in Wiley's EEO/submission systems or Wiley Author Services.

As part of their submission workflow, authors will be asked to input all authors on the paper. Please note it is this step that **triggers eligibility**.

This system only allows for **one corresponding author (CA)** to be labelled here. Each author can only add **one affiliation**.

Authors will get **emails** on:
