Good afternoon, Kelly,

Thank you for notifying us of the change concerning the marine mammals in Gulf World Marine Park's custody. The National Inventory of Marine Mammals (NIMM) database has been updated with the death of one bottlenose dolphin (*Tursiops truncatus*) at Gulf World Marine Park (NOA0006682 / TT1002 / Jett). Attached for your files is an updated Marine Mammal Data Sheet for this animal. Note that the cause of death is recorded in NIMM as 'Trauma - acute head trauma,' as you've reported. Please let us know if anything on the datasheet is inaccurate.

If you have any questions regarding the NIMM, reporting requirements, or would like to request inventory information, please contact our Office via return email or by phone (301) 427-8401.

Sincerely,  
Courtney
