We may not get clearance to respond, but if Julie approves, I suggest something simple like this:

"NWS leadership sent these directives to field staff so they (and the entire agency) could maintain operational focus on Dorian without distraction."

Hi NWS press folks and Director Uccellini,

This is for a Washington Post story **running imminently online and in print on Sunday.**

On Sept. 1 and again on Sept. 4, NWS personnel received a guidance not to provide opinions on national level social media posts in the media and to stick with NHC forecasts if questions

arise about the posts.

Staff understood this to be a response to President Trump's Alabama comments and that they were essentially being told not to contradict the president.

Can you respond to this and explain the reason behind sending these dual directives?

Please send any responses to Colby and myself. I'm cc'ing Jason as well who has been working on this story.

Thank you and all the best,
-Andrew
