Subject: Re: TIME SENSITIVE inquiry from WaPo

The original ROC message was posted after we learned about the "national level social media post" to provide guidance that any related questions be directed to public affairs. The underlying reason was to keep our staff safe and out of the fray (those were the exact words that I used).

About to depart for trek to NWA. Have few hours when I get to ANC before red eye. Was on way back from Somoa when all this happened but my understanding was direction was given prior to understanding full sequence of events. Do not think Birmingham violated what NHC said but not 100% sure and hoping Andy knows. Recall Comms had gotten involved and talked directly to FO outside chain. Thanks

Subject: TIME SENSITIVE inquiry from WaPo

Hi NWS press folks and Director Uccellini,

This is for a Washington Post story **running imminently online and in print on Sunday.**

On Sept. 1 and again on Sept. 4, NWS personnel received a guidance not to provide opinions on national level social media posts in the media and to stick with NHC forecasts if questions arise about the posts.

Staff understood this to be a response to President Trump's Alabama comments and that they were essentially being told not to contradict the president.

Can you respond to this and explain the reason behind sending these dual directives?

Please send any responses to Colby and myself. I'm cc'ing Jason as well who has been working on this story.

Thank you and all the best,
-Andrew
