Subject: Today's Statement

Everyone,

An official statement has been sent out to media from NOAA this afternoon. Let me just say I am extremely proud of the work each of you do each day to support Alabama and deliver the mission. This office has been through a lot in the last 10 years, and I feel you are better for it and so is our state. If you want to discuss this, please give me a call. Even while I'm on leave I have time to talk. But please be cautious about commenting publicly. It's a strange time we live in, and our work should speak for itself.

Chris
