Dear Sir, is it true, an unaddressed, un attributed letter, backing the President's claim of an exceptional danger to Alabama, from Hurricane Dorian, is correct?

I am a pilot. I depend on accurate, up to the moment models from you. A letter, not only rebuking your own local office, but supporting a model, that was never published, is irresponsible to its core!

Unless, there is either a citation for the claim, or a complete denial of said claim, I promise a lawsuit, that will bring tears to your agencies eyes!

Sincerely, Scott Partridge Lilley
