OK. Alli, can you please do me a favor and provide the link (I don't have it) when you make the final edits? Mary was looking for it today if that's possible.

Thanks,
John

Yes provide the remarks to her. Let her know that I made several additions just before I went up on the stage. Will make changes in the link today.

Louis,

Please see request below from Mary. I told her I can help get her a copy of the remarks, if that's something you still want to share. Please let me know how to proceed.

Thanks,
John

Hi Peyton and John

Louis mentioned yesterday he'd provide me a copy of his remarks I could share with AMS leadership. Who would I talk to about that? Mary
