I am calling them this afternoon, so thanks for the heads up.

... And for all YOU are doing.

Mary

Mary, I am only including you on this. Not sure who is calling NHC. I spoke at length Saturday. They are down (I think part of is they are tired also) as they made outstanding forecasts. Probably the most \$\$ saved ever by NWS forecast. Ken is savvy enough to understand but all the other distractions this week didn't really allow this message to be heard. I appreciate you guys calling. I've already seen an email from SJU with very positive comments on Kevin's call with them.

Steven

Field Directors,

First -- thank you for working closely with your teams during Dorian, and on issues that they may have concerns about. I wanted to let you know directly that Kevin Cooley, John Potts and I will be making short appreciation calls to several centers and forecast offices today just to provide a direct contact and reassurance from NWS HQ leadership of our support to them.

This is meant to be additive to your efforts, and we will acknowledge our confidence in your leadership and support for those efforts as well.

Feel free to contact any of us with any comments or questions.

Best,  
Mary

Good morning EC - Following up from the call. Please see phone call assignments below based upon the list below:

Kevin Cooley: San Juan to Birmingham and WPC to SPC

Mary Erickson: Atlanta to Raleigh and NHC to OPC

John Potts: Wakefield to Boston

Jeremy is circulating short talking points. I have linked notes from the call below.

Hi Mary and Louis,

Here are the phone numbers for the WFOs, CWSUs, and RFCs that have dealt with Dorian. Additionally, I have listed the phone numbers for the National Centers. These numbers will likely lead to a phone tree, in which you will have to select the option to speak with a forecaster. If you need any additional numbers, please let me know.
