Subject: Re: Shasta Reintroduction and Water Supply Benefit white paper

All,
I am thinking it may be helpful to touch base on this topic on Directors call tomorrow.

David, Federico, Dave,
Attached please find the white paper on Shasta Reintroduction and Water Supply benefit that you and Barry have been discussing. Barry is on leave, and I am sending this for discussion on his return.

I am very concerned regarding a call we received today notifying us of a stop work order you issued on the fish passage pilot program. This program, as you know, is a required element of the RPA and associated ITS for the operation of the Central Valley Project. I would appreciate your prompt attention to re-starting this critical work. If you'd like to discuss this further, I can be available any time tomorrow for a phone call.

Thanks,
- Maria
