FYI, Barry, I spent a lot of time with Reclamation last week trying to come up with some joint talking points on where we are on the Shasta RPA amendment. It was a frustrating process, as they repeatedly back off of previous agreements, when pressed to put them in writing (even if just talking points). Nonetheless, it's helpful to be on the same page at this point of the year. The attachment has our joint points.

Thanks, Federico. We are all mostly saying the same thing. It was getting hard to look at, so I accepted all changes except for the few areas that you will see in the attached, that I am hoping you can agree to. Give a call if you want to discuss.

Federico - Thank you. We discussed these this morning with Jeff R and Garwin, and then I had a good phone call with Dave Mooney this afternoon to see if we could capture more agreement on the biological side of the house. Here are my edits. Happy to kick these back and forth one more time tomorrow if needed. I think we are getting close.

Hi Maria,

Thank you for sharing your draft. Attached for your review is a revised version that reflects Reclamation's input. I know Jeff will be meeting with you and your staff later this morning and can go over the attached as needed. Thanks, FB

Federico,

Here are the talking points that we drafted that we think reflect our staff level agreements to date. It would be good to get your, Jeff and Dave's high level comments on these soon.
