Subject: I:E ratio alternatives -- please add to google doc by COB Monday, 6/12.

As part of the Track 1 ROC on LTO process, Reclamation has shopped several alternatives to Action IV.2.1 (the I:E ratio action in the RPA of the 2009 NMFS LTO BiOp. Especially as part of Track 1 (which is supposed to include relatively easy-to-implement, low-hanging-fruit types of projects), the proposed alternatives are....challenging. This issue has been elevated to Maria and Federico's level and **Maria has asked for the WODC's ideas on "alternatives to the I:E ratio in IV.2.1 that provide equivalent protection"**.

Please share your ideas BY MONDAY 6/12 COB on the google doc I shared with you, and available at: https://docs.google.com/document/d/1czZ89H3wJPldCz7oheP9Kp-5hhAG9J-qkFt_8l_afM0/edit?usp=sharing

A small group (Garwin, Jeff, and me?) will brief Maria on our ideas sometime the week of 6/12.

Thanks,
Barb
