Ben and Katrina,

Attached are various screen shots of a compilation of papers and reports that are related to the Delta and NMFS' listed species. Most are from 2010 to the present, but there are some older papers and reports that are relevant to the future consultation too.

Combined storage is 1.21 GB. I have copied them onto a flash drive, so please let me now when would be a good day/time for me to come over and give you a copy.

Thanks.

-Garwin-
