Liz,

Thanks for the opportunity to review the subject document. Attached are NMFS' edits and comments in track changes. Also attached are the methods to calculate the catch indices that were referenced in the Fishery Response Plan.

Hi Garwin, Carl and Kaylee,

I'd like to request your respective agency's help in reviewing the attached "Fishery Response Plan" that is required by D-1641 for Stage 2 JPOD pumping at Jones and Banks pumping plants. The previous plan was written in 2006 before the current Biological Opinions so the plan has been updated to reflect the more current information.

If needed, we can also set up a meeting to discuss any comments/suggestions/revisions.

Thanks for your help,
Liz
