Hi, Garwin—

Attached are the updated notes incorporating some of Jeff's and your comments. I'm not sure whether (or what) changes are actually needed to respond to the remaining comments. Perhaps we can talk through that this afternoon.

(I'm also attaching the Water Level and Water Quality Response Plans as requested via your comments on the notes.)

As an update, OCO staff met with CVO staff last Friday to discuss coordination between DWR and Reclamation for preferential pumping. We will be developing a letter agreement similar to, but separate from, the regular JPOD letter agreement, for any wheeling done at Jones for the SWP. The new letter agreement will provide for no conveyance charges for either project when like amounts of water are moved under preferential pumping and during emergencies and maintenance outages. The new agreement would be in place by January 2019.

Finally, I don't have an agenda for this afternoon beyond continuing our discussion from April 2. However, if you have specific items you would like to see on an agenda, please let me know.

Tracy,

Have you revised the notes from the last meeting?

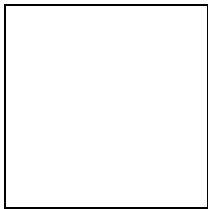

Do you have an agenda for this afternoon?

Anything Jeff and I need to do to prep?

-Garwin-

Hello Tracy,

Garwin's and my comments to the draft notes for the Predation Reduction Sideboards are attached to this email. The afternoon of April 18 works for me too. I'll call in on the conference line number.

Jeff

Hi, all—

During our discussion yesterday, we identified a number of “side boards” and some potential exceptions for shifting SWP pumping to Jones Pumping Plant for the purpose of reducing pre-screen loss of ESA-protected fish.

Please review the attached Word file as soon as possible, and send me any comments by COB tomorrow (4/4). We'll then meet with CVO staff, and we'll capture any new additions to these sideboards and exceptions in a Track Changes format.

We also discussed meeting again the week of April 16th. Right now, it's looking like Wednesday, April 18th at 3:00 will work for SWP folks. Will that work for you, Jeff and Garwin?
