Subject: link to 2017 CAMT SST Report

The January 2017 Collaborative Adaptive Management Team Salmonid Scoping Team (CAMT SST) Report: "Effects of Water Project Operations on Juvenile Salmonid Migration and Survival in the South Delta" is posted (in sections) at: http://www.westcoast.fisheries.noaa.gov/central_valley/water_operations/OCAPreports.html.

A convenient way to dive into the report is to read the executive summaries at the start of both Volumes 1 and 2. Volume 1 (in general) and Volume 2 (in the context of specific management questions) summarize the technical information provided in greater detail in the appendices.
