Thank you to those of you who replied, indicating whether or not you would be reviewing the near-term actions document. During this week's core team meeting, we had plenty to discuss regarding the near-term actions document, including the potential perception that since we've been meeting on a regular basis, that there is 5-agency agreement on all of Reclamation's proposed near-term actions. Therefore, Reclamation said they would send out a consultation and coordination section. Here it is, attached. I'm assuming the content from the previous version that I sent out is intact in the attached. Apologies if you have already started your review and comment.
