

### Chinook survival results

Results from:

Brandes et al. 2017, Multivariate San Joaquin River Chinook Salmon Survival Investigation, 2012-2013. USFWS report. 6 October 2017.

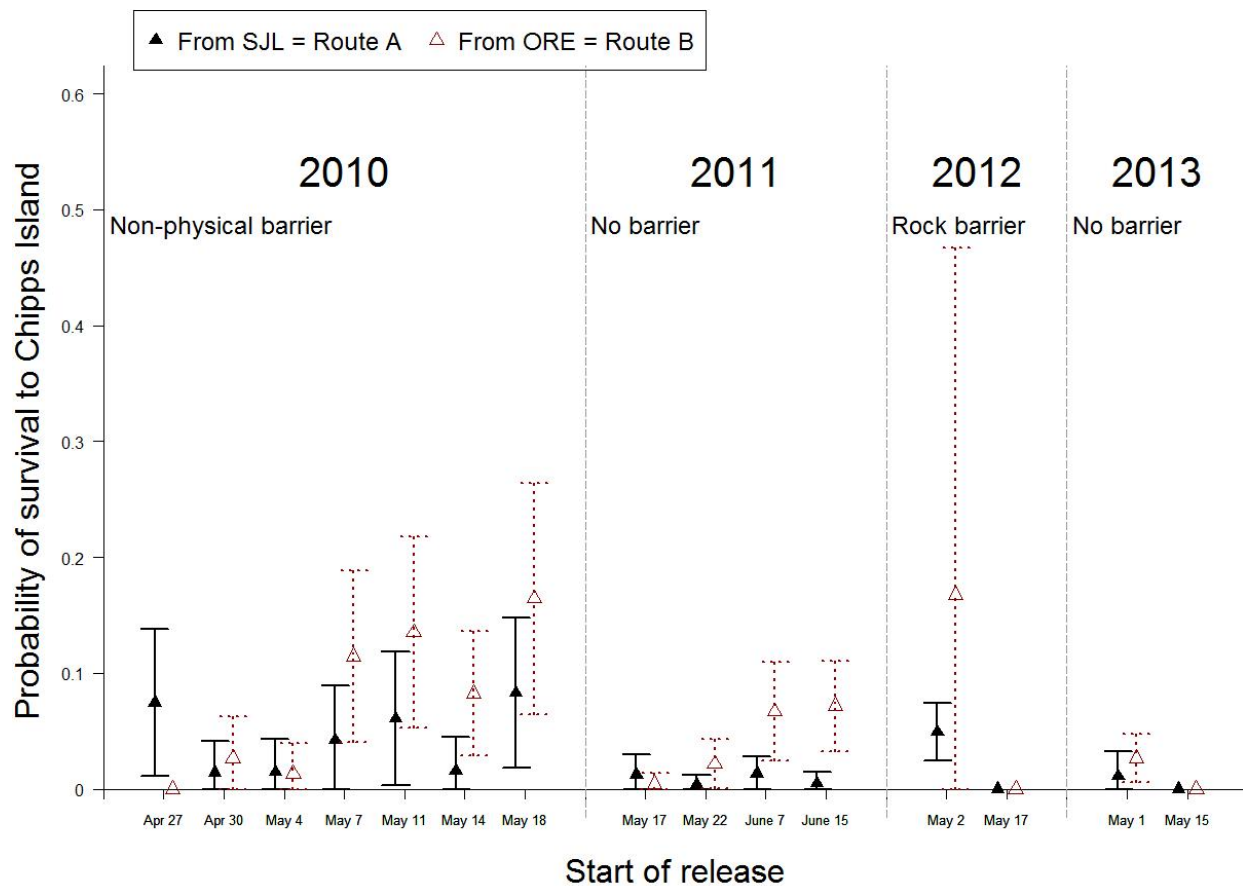

Figure 1. Estimated probabilities of surviving from the head of Old River (SJL or ORE receivers) to Chipps Island for the San Joaquin River route (Route A) and the Old River route (Route B), for each study year and release group; bars indicate asymptotic 95% confidence intervals. Route is determined at the head of Old River; salmon in the San Joaquin River route may enter the interior Delta further downstream.
