FYI, notes from Janice regarding fish agency comments on the MOU. Note that the 2 issues she flagged are the same as the ones I flagged, with the clarification that "only" SOME of the PWAs want a shorter duration BiOp, not all of them want that. **Please clarify that in our document.** The other 2 bins of issues (for solicitors and staff) may be supplemental information that I don't expect to be brought up at tomorrow's meeting.

You mean shorter duration, not shorter document, right?

Hi Garwin,

Thank you for your attachment. Very helpful. The only comment I have is that when we refer at the PWAs wanting a shorter document, that is a segment of the PWAs and not all of them.

Attached is what we have so far and what we are submitting to Federico.

I got the first 2, the proposed species is a USFWS issue. Basically prep Barry on any issue that will/may come up on Friday's meeting. Thanks.

Hi Garwin. I will work on this tomorrow morning. Today I was putting out fires. Could I provide this to you by noon.tomorrow?

Basically the flagged issues for the principals are:

- 1) One BO vs two highly coordinated BOs
- 2) Including CWF in this consultation
- 3) Including any proposed species in the consultation

There are other legal issues that we want Kevin to try to address. I will send you those tomorrow. Take care, janice

Janice and Luke,

Any chance I can get your chicken scratch of the key issues associated with the USFWS and NMFS comments on the MOU that will be mentioned on Friday's principals' call? Of course, I'd like it ASAP.

Thanks.
