All -- Subject docs attached. Reclamation is preparing trip binders; Maria, I'll make you a set of the attached briefings this afternoon.

Coordination with Reclamation: Josh Israel reviewed those that seemed most relevant for NMFS/Reclamation coordination and had very minor edits (summarized below; my response in blue). Attached, FYI, is a single document with the track changes versions of the three modified briefing sheets.

Josh said "These look really good. I reviewed:

Salmon BiOp: no comments, just add name of who prepared it. [Done](#)  
Existing BiOps: one comment, and add name of who prepared it. [Added in mention of -5,000 cfs OMR limit; added name \(Garwin\)](#)  
OMR: no comments, just add name of who prepared it. [Done](#)  
CWF: There are a couple awkward (\$) next to a couple bullets, Im not sure what these mean, so consider if they are needed. add name of who prepared it. [Deleted the dollar signs, added name \(Cathy\)](#)  
Reintroduction: one comment. add name of who prepared it. [Added in reference to 2014 Recovery plan; added name \(Jon\).](#)  
Shasta Temp: no comments, just add name of who prepared it. [Done](#)

Subject docs attached -- this is the entire batch (10 docs in all) for NMFS. The attached "NMFS briefings" doc is for your use only (not intended for the binder) and shows:

-- (yellow highlight) the briefings associated with the attached docs; NMFS staff highlighted  
-- (blue highlight) briefings on which I have a comment but no associated document attached to this e-mail

Note that no NMFS presenters are on the agenda for Thursday, 8/30, so no briefing sheets needed from NMFS for that day.

Thanks for putting these trip binders together!

Barb
