**Subject:** ROC on LTO 3TM  
**Attachments:** 3TM for 6.28.18 Oliver&Gallaudet meeting with Feinstein\_ROC on LTO\_forBATreview.docx

Howard, the latest version of the subject 3TM is attached, FYI. I don't have the version sent to HQ.

A few notes:

- While all three BiOps (one each for each phase of the ROC on LTO effort) are expected to be complete *by* Aug 2020, as noted in the 3TM, the expected timeline (still a moving target) is that the three BiOps will be staggered in time, not all due *in* Aug 2020.
- Since this 3TM, Garwin has developed a broader list of "Critical Success Factors" necessary for us to meet the aggressive timeline.
