Hi Folks,

We do have memo that you guys prepared for the transition materials that's a few months old, but still has relevant background info. I think you can take this, and just updated to reflect the latest.

Thanks,
Brianne

Hello WCRO -

Chris has a call next week with Scott Cameron, a political from DOI. He is very likely going to want to talk about California water issues. Do you have an existing memo that lays out the background and current state of things that you could send me to share with Chris for his awareness. I'm thinking I could share a background memo by **7/18** and if he has questions then we could schedule a short call.

cc'ing Emma, Sam G and Brianne in case they are aware of existing materials that might do the trick.

Let me know what you think.
Thanks,
Alesia
