Hi Barry, Scott, and Nicolle,

Sending this to you all simultaneously to facilitate review/clearance given everyone's calendars next week.

Chris Oliver has a call next week with Scott Cameron, a political from DOI. He is very likely going to want to talk about California water issues. HQ has asked that we update the document that was prepared on the subject last year for transition materials.

Attached for your review please find the WCR response to this tasker (both clean and with track changes). This is due back to HQ by **COB, Tues, 7/18**.

CVO has specifically asked for **Barry's review of the CWF** information. For example whether/how Barry wants to mention Reclamation's concern and our hope that we can resolve with some sit-downs rather than have Reclamation send us a letter.

If Chris has questions after reviewing the memo then we may need to schedule a short call.

Please let me know if you have any questions.

Thanks!

Laura
