OK great - thanks Sara! I will take a look at this first thing tomorrow, and let you know if I have any questions.

Cheers,  
Noble

Hi Noble,

I have finished running the delta habitat capacity model for the 3 RoCon scenarios, and have attached the results. These files have the same format/same tabs as those Hiroo provided to you previously. Please let me know if you have any questions or need anything else.

Thanks,  
Sara
