Subject: Re: Seasonal habitat capacity

Are you saying I should hold off on calling in until 12:45?

We may want to reserve the later part of the meeting to discuss these so that the other leads can peel off. Want to set 12:45 as a time and if we are still caught up in our meeting, try for later today? should Sarah be part of it too?

Hi Evan,

Here are the results. Pretty straightforward. I will call in at noon to answer any questions.

Eric

Hey Eric,

Thanks for the information yesterday. Can you provide a comparison of habitat capacity (from the WRLCM) between the PA and COS for the following "seasons":

Winter (Dec 1 - March 1)

Spring (March 1 - May 15 [maybe needs to be June 1? or May 1?])

Summer [temp mgmt.] (May 15 [or June 1] - Nov 1)

Fall (Oct. 1 - Dec 1) <-- I realize there's overlap with Fall.

These "seasons" generally correspond to the timing of Reclamation's operational decisions, so it may be a way to describe any differences in the operations (PA to COS). If there's no difference that's useful information too.

Thanks,
Evan
