Dan and Kaylee -

Per our discussions today, here is the current Shasta RPA adjustment process and schedule. Garwin and Brycen are currently incorporating comments from Reclamation on the first draft outline, and we are planning to include you on distribution of the second draft, as you can see. Let us know if you have any suggestions on process. I believe Michelle may be interested in discussing a more formal mechanism for you to concur on our adjustments, and I am open to this discussion. If you would like to identify a lead staff person for Brycen to work with, that would be helpful.
