Hi,

9/6: Do you mean 9/8? Jeff already said 9/6 won't work. 12-1 pm works for Maria and Garwin/ or 1-2 pm -
May be able to open up this time if that works best for everyone else
9/12: Maria is not available all day
9/13: 9-10 am can work for both/ 10-11 am - works if there is no CWF principles call - which has been the
case lately

Hope that helps,

V/R,

Aimee

Aimee, Garwin,

It's looking like 9/6 won't work out - let me know if any of the following times might work:

9/8 - After 12:00

9/12 - After 10:00

9/13 - Before 12:00 (less preferred)

Thanks,

Jeff

Hi Jeff,

I wanted to update you that Maria Rea **only has availability on 9/6 - 2-3 pm** currently. I have a hold on her schedule for this, please let me know if another date was selected and I can release it, thank you,

Aimee

Thanks, Jeff.

The "save-the-date" e-mail works for me.

cc to Aimee for scheduling of NMFS folks, but I did take a look at your suggested dates and times for the Reclamation/NMFS premeetings and initially identified the dates and times that work for Maria, Brycen, and me:

-- 9/6, 2-4 p.m.

-- 9/7: 2-3 p.m.

9/19: I'm not sure we can swing it, but I do think we need a 2nd meeting.

Hey Jeff!

I'm adding Barb Byrne here---I'm actually on a NOAA detail for a few months in Alabama, so Barb is holding down the fort.

Hope all is well with you,
Christina

Garwin, Christina,

I'm getting ready to send out an email and calendar invite to the Shasta RPA group for the September workshop. Let me know if you have any edits/comments on the language below. Also, we should look at scheduling one or more agency pre-meetings in the next few weeks. Perhaps we could initially target the week after Labor Day - would the afternoon of September 6, after 2 PM be a good option? If not, perhaps September 7 before 11 or after 2? Then for a second meeting, we could look at the afternoon of September 19?

Thanks,
Jeff

Greetings,

Please Save The Date for the fourth stakeholder meeting to discuss the draft proposed amendment (issued January 19, 2017) to the Reasonable and Prudent Alternative of the 2009 NMFS Biological Opinion for the long-term operation of the Central Valley and State Water Projects related to Shasta Reservoir operations. A calendar invitation will follow shortly.

This meeting will be held:
Thursday, September 21, 2017
1:00 pm - 4:30 pm
2800 Cottage Way, Cafeteria Conference Room, Sacramento (location of Reclamation Regional Office)

This meeting will focus on two topics; 1) update on temperature operations for the 2017 Sacramento River temperature management season, and 2) update on system-wide analyses of the draft proposed amendment. More details, including a meeting agenda as well as call-in/web-conference information, will follow in the coming weeks. In addition, the agencies will be following up with a summary of the most recent meeting in the near future.

Please feel free to forward this message to anyone we may have missed that should be involved. Also please let me know if you would like to be removed from future emails on this topic.
