Maria,

I talked to Jeff Rieker last Friday afternoon about possibly postponing workshop #4, which currently has a hold on Reclamation and NMFS calendars for December 14. That's next week! Between now and then, we need:

1. Easy: Save-the-date e-mail
2. Easy: Agenda development
3. Challenging: Reclamation and NMFS pre-workshop coordination meetings (NMFS only has an hour or 2 available this Friday, and possibly the morning of December 14, which is a bit too late)
4. Challenging: PPT Presentations
5. Challenging: Time and focus.
 - We have LOBO review the bulk of this week
 - Deposition prep this week and depositions next week (and I'll be out of town Monday afternoon through late Tuesday).

Jeff says it makes sense to postpone until mid January. He was at ACWA most of last week, and a lot of the water users expressed heavy meeting and workload on many fronts, so he thinks they would also appreciate postponing.

Thoughts?

In January, we'll need to focus on:

- Workshop #4
- Negotiating and documenting another pilot year
- Prep for February forecast

-Garwin-
