Jeff,

Attached are the slides from the LOBO review presentation, to be inserted into the placeholder in your combined slide deck for workshop #4. Changes:

- I added slide 8 on the Australian model framework as an introduction to how we adapted the concept in slide 9
- I deleted your slides pertaining to the LOBO review questions to the IRP and Reclamation's perspectives
- I added slide 14 to reflect that the LOBO review happened
- Slide 15 (Science Plan) should either be deleted or moved to and combined with your slide deck on the Draft Science Work Plan.
- Slide 16 (Next Steps) should either be deleted or moved to and combined with your slide deck on Next Steps.

Your current combined PPT has the Reclamation background, but our amendment vs. RPA, and Science Plan, slides are joint. I don't know how difficult it would be to either separate those out to get the NOAA logo on those slides, or to add the NOAA logo on those slides in the slide deck.

Hi Jeff,

Attached is the most current version of the presentation on the Science Plan. I had seen that in your presentation there's a place holder so I'm forwarding to you for inclusion. I'm also CC'ing Josh in case there are any changes or revisions that he'd like to make.

Thanks,  
Evan
