It is not ready to share -- even if it were, it would be an exercise to identify to what level we break it down. I suggest that we indicate that we are actively working on having a structure settle in, and we could provide an outline perhaps at the end of the month. However, our general outline will follow that of our regional template, and they could look at the CWF BiOp as an example of that.

Our fish biologists are trying to plan for their review of your BO and thought seeing the outline of it might be helpful.

Katherine, can you send this to Katrina? But I have to ask - any particular reason you're asking?

Hi folks -

Do you have an outline of your BOs by chance?

Thank you,
