Subject: Key Consultation Considerations

All,

I "finished" putting together section 1.3, Key Consultation Considerations, in the CVP ROCON drive. The entirety was copied and pasted from the 2009 BiOp, the track changes applied for:

- wholesale deletions of sections I didn't think were applicable (e.g., litigation),
- edits to update for the current effort (e.g., TRD, hatcheries, peer review),
- placeholders pending decision (e.g., individual contracts), and
- new subsections (e.g., WOA, Shasta Dam raise).

This is definitely not ready to distribute for review and clearance, and I think we should hold off on that until later on when we have a tighter list of key consultation considerations, but what I would like is for you to review and comment so that I can clean the doc up a bit, at a minimum, weigh in on subsections that I suggest deleting, and if you can think of additional key consultation considerations, to put those in so I can expand to additional subsections.

Susan--given the above, I'll leave it up to you to format now, or just take this as an FYI for later.
