Maria,

In consideration of time, I'm sending you the Shasta effects section with my comments (only the species analysis--I haven't reviewed the critical habitat analysis yet) for your initial review.

Naseem is continue to incorporate some comments into the environmental baseline section. I will be sending that section to you first thing tomorrow morning.

Hi Garwin,

I'm having trouble accessing the ROCON drive via VPN so I've attached the Shasta effects section (with some place holders that I'll fill today) to this email.

Thanks,  
Evan
