Subject: Re: Edits to Delta section

Hi Garwin, I am clearing the Delta effects section for purposes of peer review, I'd like to see final version again before it goes out as final.

Maria,

Attached is the updated Delta section. We were able to put back into the doc Jeff's track changes responding to your larger comments, and also the new text that Barb and Jeff put together recently.

I've reviewed all, and Barb and I are available to chat before the OMR meeting at 1 p.m.

Maria -- Attached is an updated version of the Delta section with additions based on your feedback on Wednesday morning. **Also attached is a proposed Appendix to the opinion with annotated bibliographies of recent Delta-related science.** It is still rough; I'll give you a call and we can walk through some of the key additions and prioritize any remaining to-do's.

Some remaining shortfalls include:

--summary of Chinook and steelhead 6-year study results
--inclusion throughout text of specific recent citations; still relying on reference to SST report and annotated bibliographies in Appendix to incorporate by reference recent lit reviews.

Barb
