Subject: Re: Delta section cross reference errors

I just corrected the 2 cross references in the V14 doc in track changes. I can revert these and save the changes in a V15 doc if that is preferable.

I didn't fix them. I suggest we save the V14 peer review version as V15 MASTER and start our next round of refinements, including these that Kristin caught.

Catching up on my hundreds of e-mails. Does anyone know if these were fixed in Barb's Saturday version that responds to Reclamation's comments?

Hello All,

I just opened the Delta effects section and noticed a couple of reference errors. There's one on page 56 that should be "Figure 2.5.5-28", and one on page 62 that should be "Section 2.5.5.1.4" I didn't want to change the clean master version, but can go in and correct these two errors if no one is using them.

Kristin
