Subject: Re: SRSC Letter to Ms Sobeck

Thad,

Thank you for this email attaching your follow up letter and Bechtel proposal. I've been in touch with Reclamation about the desire to develop a three party collaborative six month work plan/framework. We have a scheduled meeting with them later this week on the Shasta RPA adjustment process, and I plan to discuss this concept further with them at that meeting. I look forward to meeting with you on Friday to discuss next steps.

Maria, Will, and Barry,

Please find attached a letter to Assistant Administrator Sobeck to follow up our meeting from two weeks ago, we appreciated having you all on the phone for the meeting. Our hope is this letter will energize our conversation and put together the work plan we discussed.

We are working on a Framework for the Shasta modeling and will get that to you shortly, we have a meeting scheduled with Maria Friday morning and should have it ready for that meeting.

I have also included our Proposal to Bechtel that we discussed and are hopeful that you will engage on this as well.

As Will brought up on the call, we will need to definitely need to figure out how to get us all around a table including Reclamation and other agencies to move this effort forward.

Thanks again,

Thad.
