A few things to add to your list of topics, if time (off the top of my head - Garwin might have more)

Pulse flows/ecological flows  
Passage program at Shasta  
Yolo Bypass actions  
CVP preferential pumping  
Changes to So Delta facilities  
North Delta Bypass flow studies and criteria  
San Joaquin corridor April-May actions (I:E)  
Changes to transfer windows  
Drought exception provisions/health and safety

Good Afternoon,

In advance of Monday's Principals meeting at 1:30 p.m. in Reclamation's Bay Delta Office on the Reinitiation of Consultation (ROC) on the Long-term Operation (LTO) of the CVP and SWP, here are materials for discussion. Attached, please find an agenda, a proposed action list, and a biological assessment outline. These items are draft, intended to spark discussion, and are by no means intended to be final.

Please note, we are reserving 3:00 p.m. - 3:30 p.m. to discuss the Biological Opinion development for WaterFix since we will have the needed folks in the room.

Thanks for your time and looking forward to Monday's discussion. Please contact me with any questions or comments.

Michelle
