Thad,

See attached. I'd be happy to chat about it with you guys. I got the temperature, storage, and flow data from:

Brycen,

Would you be willing to share some of the data (excel file) you got from USBR regarding your memo attached to the RPA. Its good info and well put together and would help us look at numbers from our perspective and how this matches up with our diversions etc.

We could do a sit down with us and MBK to talk more about it too.

Thanks,

Thad.
