Here are the previous letters from GCID. I think it would be good to refer to some of their points on Friday.

Subject: RPA Adjustment Letter

Maria,

Thank you for the brief meeting yesterday on the proposed RPA amendment process. While we may not had the opportunity to fully understand and engage during the meeting, we did leave and process what the potential impacts could be from the PowerPoint proposal.

To be constructive, we have provided the attached letter identifying several concerns as well as a corresponding recommended action.

Thank you again,

Thad
