Subject: Re: Five Agency Principals Meeting -- ROC on LTO MOU background and ETA on add'l materials

Regarding agenda item #3 on BOR's participation in the Adaptive Management Program, the topic came up on Tuesday's ROC on LTO core team meeting. Reclamation indicated that the way it is worded, that the CWF Adaptive Management Framework is retroactive to the 2009 CVP/SWP operations BiOp, and they do not agree with that. I'm not sure if that's what the agenda item is getting at.

Attached are:

1. *Draft* agenda for tomorrow's call (noon-1pm)
2. Materials related to Agenda Item #4 -- ROC on LTO MOU
 - a) the NMFS comments we submitted on the draft MOU
 - b) background doc from Garwin

Cathy and I are working on background for Items #2 (CWF updates) and #5 (SWRCB hearings re: change in point of diversion) and should get those out late today or early tomorrow. That material will include an update on the status of each of the BiOp clarifications we discussed with the PWAs. Note that we have NOT yet received a draft clarification letter from Reclamation.

We're also looking into what Item #3 (BOR's participation in the Adaptive Management Program) is about and will provide background if we can.

Where: DCR 1103 / Conference Call - [916-574-2008](tel:916-574-2008)

Good Morning –

We have been chatting among the five agencies and determined that there are two key topics that warrant discussion with agency principals:

- CWF: Updated on BiOp clarifications, relationship with ROC on LTO, and corresponding activities. (Reclamation)
- ROC on LTO MOU comments (USFWS, NMFS, DFW)

Thanks. This is a placeholder for the meeting. Conference and meeting room information will be added shortly.
