**Subject:** Shasta RPA Adjustment Workplan  
**Attachments:** Shasta management questions\_NMFS.docx

Hi Josh, David,

I've attached to this email some draft management questions to help guide the development of the Shasta adjustment research and monitoring workplan. Building on the discussion we had last week and to balance your "bottom-up" approach, we've posed a number of management questions that describe the uncertainty regarding managing to RPA I.2, and what we hope to achieve through the implementation of the RPA adjustment.

I know that you are currently revising the workplan and I'd be happy to help, especially helping to work these management questions into the document. Please let me know how I can best be of help.

Thanks,  
Evan Sawyer
