Subject: Re: ROC on LTO Trinity River ROC Band

Hi Katrina,

I know we have an upcoming meeting with the two most interested tribes on this ROC. But from our experience, the Hoopa and Yurok tribes don't want just an introductory meeting on this effort, they would want to be a part of the brainstorming workgroup. Please consider inviting them as they would prefer a more meaningful engagement.

Thanks

Hello all -

We are looking to start brainstorming on the Reinitiation of Consultation (ROC) on the Coordinated Long-Term Operation (LTO) of the Central Valley Project (CVP) and State Water Project (SWP). This is a large effort and will require a great amount of coordination.

To start, we are looking to assemble geographically based interagency, interdisciplinary technical workgroups (ROC Bands) to identify and develop new ideas to meet the biological and operational functions of the CVP and SWP. Attached is a overview chart that describes this, as well as the draft Charter which further describes the purpose, objectives, process and timeline.

Also attached is a draft agenda. Initially we would like to start with a 2-day workshop identifying functions (how/why) and brainstorming solutions. For those of you who have participated in our previous Clear Creek or American River versions, we have shortened the process. We're thinking the workshop would take place in Weaverville, CA. Please fill out your availability on the poll below, and we will try to select two consecutive days:

<https://doodle.com/poll/5r4ih2gewegqe866>

Further down the road we will be meeting with stakeholder groups to go over a similar process, as well as evaluating the stakeholder input and refining the ideas. This will require meeting several more times. We understand that this is a large commitment and may be difficult, but feel it is a very important process to all of our agencies and missions.

If you have any questions please contact me (below) or Ben Nelson at bcnelson@usbr.gov or 916-414-2424. We look forward to working on this with you all!

Thank you,

Katrina Harrison
